### Flash-Light Telephone System To Go Into Effect

An advertisement, appearing on page 8 of this week's Echo, mentioned the change that will be made in the local telephone service. At midnight, March 27 the present adequate way of ringing exchange by means of a rotary-grind by hand on the right of every telephone will become a thing of the past—as far as Bay St. Louis and Waveland are concerned. All that will be necessary after that date and time to attract attention of central will be to simply lift the receiver. Then a gentle voice will come back with, "Number, please."

The flashlight system then will be in vogue and will save lots of lost time and unnecessary vexation. At a later date, The Echo is informed, a formal reception will be tendered the public on the exchange floor when the transition of March 25, midnight, from the old to the new, will be duly celebrated.

### HURLS SELF TO DEATH AT MEMPHIS

Mrs. Prather McDonald, Spending Winter at Bay St. Louis, Victim Nervous Break Down.

Mrs. Henry L. Meyers, mother of Mrs. Prather S. McDonald, spending the winter at Hotel Weston, received a message from Memphis late Sunday afternoon apprising her of the tragic death of her daughter, who had plunged that afternoon from an office building window in that city. Mrs. Meyers left that night, accompanied by her grandson, for New York City, to meet the body on the way and in which city interment was held.

Mrs. McDonald had been spending the winter in Bay St. Louis, at Hotel Weston, with her son, Sonerled, aged 9 years, which was her annual custom, and only a few weeks previously had left for Memphis to visit her husband, where he is engaged in the practice of law, and a son of Judge Will T. McDonald, a former resident attorney of Bay St. Louis.

The Associated Press story of the tragedy follows: "Mrs. Prather S. McDonald, 39 years old, wife of a Memphis attorney, plunged to her death late today from a window of her husband's office suite on the 11th floor of a downtown building. A police investigation formally established that Mrs. McDonald, who recently suffered a nervous breakdown, hurled herself from the window."

Mrs. McDonald was alone in the room at the time, her husband, who she accompanied to the office after an afternoon church service, having gone to an adjoining office to obtain writing paper for her. Mr. McDonald heard the window slam and rushed back into the room, but too late to prevent the tragedy.

Mrs. McDonald, before her marriage 11 years ago, was Miss Helen Meyer of New York. Relatives said she suffered a nervous breakdown about two months ago while on a visit to her mother, who now lives in Bay St. Louis, Miss. Since she had been under the constant care of physicians.

Mrs. Meyers, mother of Mrs. McDonald, had arrived in Bay St. Louis during the early part of the winter and was recuperating from a shock sustained on the occasion of the tragic death of a son in an automobile accident, thus the news Sunday was a double shock.

### Bay Rotary Club Has Fine Speaker This Week; Another Wednesday

Bay St. Louis Rotary Club had another fine meeting and luncheon Wednesday at Hotel Weston, where a full attendance and guests present an animated scene at the long table of good things to eat and a table that was unusually beautifully decorated by some master hand with bowls of japonica and vases of sweet peas, harbingers of spring.

George E. Schilling, resident of Waveland, who has traveled extensively, was the instructive and entertaining speaker, while on Wednesday next Barney E. Eaton, well-known attorney and president of Mississippi Power Company will address the club by special invitation. ### CITY PUTS BAR TO BUS ON BEACH

City Commission Passes Order Refusing Bus Lines to Travel Over Beach Route

In answer to a petition numerous signed, bus and other like vehicles will in future travel over route 90, popularly designated as Old Spanish Trail rather than over the Beach Boulevards of Bay St. Louis and Waveland.

The petition and decree follows the killing of Andrew Ward on Beach Boulevard and Washington streets last week by a bus, alleged to have exceeded the speed limit. Freight bus and transfers are included in the order, which is in the following official words:

"Whereas, it is the opinion of the Board of Mayor and Commissioner that the petition be received and filed, and that the request made by the citizens and tax payers should be acted upon, and that the buses, both freight and passenger, should be kept off the Beach Boulevard as much as possible.

Faithful Administrator, He Believes, Entitles Him To Another Term as Dist. Attorney.

Believing that he is entitled to another term in return for faithful and efficient service, District Attorney Colmer is announced in this issue of The Echo for re-election. His candidacy is entitled for full and favorable consideration for the reason he has filled the office with more than ordinary ability and with an understanding that is so desired by the people.

In the conduct of his office since 1928, District Attorney Colmer has prosecuted numerous capital criminal cases, opposed by defense attorneys of notable ability, and has made an excellent record as prosecutor in all courts of his circuit.

Mr. Colmer is a member of the American Legion, and was post commander of the Pascagoula unit of the organization. He is a Mason, a Methodist, a member of the Pascagoula Chamber of Commerce, an Elk and a Rotarian. At one time he was president of the Pascagoula Rotary Club.

In addition to his record in conducting prosecutions on behalf of the State, Mr. Colmer's work as district attorney has won praise because he has endeavored to keep down court costs and to save the taxpayers the heavy burdens of trials and delays. "Bill" Colmer, as he is affectionately called by the many who know him over the district is a regular fellow, has friends wherever he is known and we know of no man who administers better to his office and is more universally esteemed than he.

### Address of Welcome.

Given the Hancock Parent-Teachers' Association Club on the occasion of their visit to the Waveland Club, Friday, March 13th, 1931. By Mrs. A. F. Fournier, President of the Waveland Club.

We greet you, Parent-Teachers' Club, With welcome warm and true; Our homes and hearts are opened wide To all such folks as you.

A sad old place this world would be As history would relate, And 'twere not for such work as ours With force co-ordinate.

The thread of life runs tangled lengths From early infant days; And guiding hands must straighten it In many helpful ways.

The constant care of Parent-thought, Surrounds the growing child, Unwarp in love this care proceeds The moments to beguile.

The wonder of the "Baby Talk" Wins plaudits of the home, And lights of love besplash the heart Where Love's own fountains foam.

Comes time when sturdy feet must move Into life's golden day; When apron strings no longer hold As in the infant play.

'Tis then we place the jewel in The teacher's special care, And eyes of parent-interest are Quickly centered there.

'Tis budding time that comes apace, When pruning must be done; And parents should watch carefully How the petals greet the sun.

A careless pruning often cuts Into the tender vine, And hinders its growth, and causes it To go into decline.

But—likewise, intermeddling Will check the gardener's work, And parents—gravest danger here Doth very often lurk.

The teacher gets the rough hewn stone, To polish, not to set; Nor parents, here's a patent fact, I'd have you not forget.

To pack the glory of the light Into the polished stone, The Teachers grind the facets—but They must not work alone.

The lapidary polishes By many a toilsome grind, The "Jeweler" does the setting, and Thus they do combine.

To place upon the velvet tray, A finished product rare 'Tis so with Parent-Teachers work I verily declare.

And you, dear parent-teacher club Are working in this way, And such co-operation Is in the mid-night of its day.

That little hyphen joining you Binds you tight and fast; Fused in interest, work you do Must needs be good and last.

Our local club, as voiced by me, Doth bid you now God-speed; May every effort that you make Win praises and—succeed.

With forces joined, we'll move along The sunlit paths of life; Avoiding all the pitfalls and Free from every strife.

### JOAN CRAWFORD'S ROLE IN "PAID" WILL SURPRISE FANS

### Star Essays First Straight Dramatic Part in Vivid Underworld Drama.

From all reports an agreeable surprise awaits those who see Joan Crawford in "Paid," her newest attraction which will head the bill at the A. & C. Theater, Sunday and Monday.

For it seems that in direct line with Metro-Goldwyn-Meyer's policy of giving its stars an opportunity to play varied roles, Miss Crawford discarded her "dancing daughter" and "Blushing bride" type of characterization in this film in order to tackle a part which is conceded to be her most difficult one to date, namely that of the heroine of Bayard Veller's underworld drama, "Within the Law," on which the picture is based.

If ever a part required acting of the first order it is this one of the pathetic shop girl who is sent to prison on a false charge and rapidly turns into a jailbird as a result of her criminal environment. That Miss Crawford should carry off the role with honors is not surprising to those who have been aware of her consistent desire to demonstrate an ability for straight dramatic work.

Others in the large supporting cast include Robert Armstrong, remembered as the star of "Is Zat So?"; Marie Prevost, last seen in "War Nurse"; Kent Douglas, a newcomer to the screen; John Miljan, as the police inspector; Fumell Pratt, of the "Trespasser" fame; Hale Hamilton, Robert Emmet O'Connor, Tyrrell Davis, William Bakewell, George Cooper, Gwen Lee and Isabel Withers.

In filming the latest Crawford vehicle, the producers left nothing to chance, placing at the directorial helm Sam Wood, who achieved a notable success with John Gilbert's recent talkie, "Way for a Sailor," and

Mr. and Mrs. Douglas Bourgeois and children and Mr. Argyle Mitchell of Hotel Weston, returned home during the early part of the week from an auto trip to Monroe, La., where they visited relatives.

Friends of Mr. J. Perry Drake will learn of his continued improvement at Bay St. Louis King's Daughters hospital. He is on the high road to recovery from an auto accident which occurred Thanksgiving-Day.

Circuit Court for Hancock county, with Judge W. A. White presiding, District Attorney Wm. M. Colmer and County Attorney E. J. Gex prosecuting for State and county, convened in Bay St. Louis Monday and will continue over until next week. Henry Capdepon is foreman of the grand jury.

## WAVELAND RESIDENT TELLS OF CITY OF RIO DE JANEIRO AT CLUB

George E. Schilling Speaks of City Oft Times Termed the Paris of America—Speaks Before Bay St. Louis Rotary Club.

George E. Schilling, well-known resident of Waveland, a man of extensive travel, was the guest of honor at Bay St. Louis Rotary Club on Wednesday of this week and addressed the club, "The City of Rio de Janeiro," as his subject, a place he had visited and where he had lived.

Mr. Schilling's address well delivered and attracted much attention. The Echo herewith reports the major highspots of the address:

Members of the Rotary International, in this county, like most other Americans, are hearing a good deal about internationalism. It may be of some interest to you to have a glimpse of a foreign country as it is seen by an American resident there, rather than by a tourist, or by a distinguished visitor. The points of view are not exactly the same.

You can get to Rio de Janeiro, in Brazil, from New Orleans direct on one of the freight and passenger boats of the Mississippi Steamship Company, and the voyage of some three weeks will be more comfortable and pleasant than luxuries or fashionable. The preferred route is from New York, probably on one of the Munsen Line steamers, twice a week to Rio. You do not know the luxury of ocean travel until you enjoyed a trip somewhere besides in a hotel across the North Atlantic. There is little rough weather—the ships are large enough to take care of you properly, and small enough so that the passengers can be sociable, and the steward can give you personal attention.

It is the custom to go into superlatives over Rio Harbor. You steam through a rather narrow entrance into a large, irregularly shaped bay, surrounded by hills and mountains rising to heights up to 2000 feet. There is a fringe of buildings around the bay, and others filling the hollows between the hills. The business center of the city is on a fairly level cape jutting out into the harbor.

After the doctors visit your ship ties up at a modern dock, and you are glad to get ashore again. A tip of two dollars (twenty milreis) to the customs inspector will probably facilitate the passage of your baggage through customs, especially if you are heavily burdened for a long stay. You find a taxicab at the door of the customs house. You can always find a taxicab in Rio, so that there is no necessity of a car of your own. But see that the driver uses his meter, you being a stranger, he will take you in for several times his legal fare.

You turn at once into the famous Avenida Rio Branco, or Avenida Central, said to be the most beautiful street in the world, a kind of combination lower Broadway, Fifth Avenue and Pennsylvania Avenue. At the end of this, on the way to your hotel, you come to the Avenida Beira Mar, a driveway that can scarcely be surpassed in beauty. On one side is the bay, on the other attractive buildings, except where you pass through one of the well-kept parks. If your hotel is the Copacabana Palace, your taxi swings off to the left, through more modest streets, through a tunnel under a low rocky ridge and so out to a gorgeous sea beach on the Atlantic, a great semi-circle, with an asphalt roadway, a black and white mosaic promenade and a perfect sandy bathing beach along the whole length.

Rio is a beautiful city, and you have seen the best of it. You have come in at the front door and gone through the parlor. This is the part of the city with which you will always be most familiar. You will probably see little of the worse side of the place, for you will live in Copacabana, or in Ipanema, beyond, or else somewhere not far from Beira Mar. You may try boarding for a while; but the food, good though it is, will grow very monotonous. The European idea of dinner is extraordinarily narrow and fixed—clear soup, a bit of fish with potatoes, roast beef or chicken, lettuce salad and an unvarying dessert. In two or three months you will do almost anything for a change.

So you will decide to keep house. This is not so difficult. You will rent, of course, for you are in Brazil only temporarily—probably on a three year contract. You may find a furnished flat, or cottage, or you may buy out some American who is returning to the States—furniture which you will pass on in your turn. As an American you are a preferred tenant, so there will be no difficulty about finding a place to live. The servant problem will prove more or less puzzling, and, at times either irritating or amusing, but new-found friends will help nobly in finding maids. In a remarkably short time you are settled into a home life that is very little different from your home life in Bay St. Louis.

Your main preoccupation is with your work, for that is your only reason for being in Brazil at all. You are doing something which no Brazilian can do as well. You are a representative of some North American interest, or else an expert, or skilled assistant, with one of the larger interests. Practically all Americans in South America represent something—anything from the United States Steel, or the Rockefeller Foundation, or the National City Bank, to the S. S. White Tooth Paste Company. Your hours will be much the same as in New York or New Orleans, from 8:30 or nine to five or six, with time for lunch, or down town. You will eat at one of several good restaurants or perhaps at the Central Club, a British American institution having club rooms on the Avenida. The

Jockey Club implies a rather unusual degree of prosperity. You will learn to read and speak Portuguese, of course. You will have to. It may not be very elegant, nor even absolutely correct grammatically, but it will become fairly fluent, and the people you meet are too polite to laugh at you—much.

Portuguese is an extremely polite language. In Spanish the ordinary word for "you" is "usted"—"your grace," but in Portuguese this is very intimate and informal. Nothing less is permitted in ordinary conversation than to call every Tom, Dick and Harry, you meet, "the Lord."

But your use of the language, except with servants, will be confined to business hours. Your social life is determined by the fact that you are an American. Indeed your nationality is of tremendous importance to you. It makes very little difference whether you are from the North or South, East or West, whether you are a Republican or Democrat, what your religious affiliations may be, or even whether you are a Rotarian or not, the big thing is that you are a natural-born member of the American Patriotic Society. You belong to the American colony, a resident in a village scattered about in a great city. Everybody knows everybody else, or at least knows who they are, what they are doing and many other interesting facts about them. You find your fellow colonists extremely friendly, cordial and helpful, as well as anxious to know your plans, sea-fights for the women, bridge parties and dances. There is a big picnic on the Pouth of July, and down-town meeting on Thanksgiving Day. There are church facilities for everybody. Much of the social life is tied up with the clubs. Besides the Club Central, where you may take your luncheon, and entertain at dinner, there is a golf club, and also a Country Club which is notable especially for Saturday night dances. You have a certain contact with the British, especially at the more formal affairs; but your intimates are your fellow-Americans.

On the whole you are proud of your compatriots. It costs several thousand dollars to send a man to Brazil for the usual term of three years, paying traveling expenses both ways, salary, etc., and no great soulless corporation is spending that much money without knowing definitely that it is investing in a pretty safe type of man.

During working hours you will meet a great mixture of peoples. South Americans, with many exceptions, are not business men and the places they have left vacant have been occupied by Europeans. In Brazil are many Portuguese, and the feeling between them and the Brazilians reminds one forcibly of that usually existing between English and Americans. There are many British, including Scotch, in banks and great wholesale houses, as well as in smaller businesses. These have an especially high reputation for honesty and business, and much better than our own, incidentally. Then there are Germans, French, Italians, Scandinavians, Syrians, a mixture as great as in New York City.

You will get along with all of these, or with almost all of them, under penalty of failure, for it is a part of your job, if not difficult. Business is business, there is here. You will develop a great respect and a cordial liking for many of these men, as they will like and respect you. But your contacts will be limited to business, or to an occasional meeting at a party, or a social hour. You are not invited to their homes, nor do they enter yours. It is not the custom.

It may surprise you to learn that they are apt to work rather harder than most merchants, or manufacturers, in this country—spend more hours at work, with details more closely and delegate less authority to employees. Competition is extremely keen and efficient, trustworthy assistants not easy to find.

You hear a great deal nowadays about the promotion of understanding and peace by international contacts. The idea that if you know anybody you are sure to like him, the better you know him the better you like him. Now that is true of some of the people you meet in Brazil, but not of all of them, any more than it is true of everybody in this country. The more you know some people the more you like them, and the more you have to do with them the more occasions you have to quarrel with them.

In a very important way you are a representative of your country, untitled and unpaid, but so recognized by everyone you meet except the representatives of the State department. You are authority on everything North American, from politics to prize fighting. You will be respected only as you are loyal and patriotic, this in spite of the fact that Sinclair Lewis got the Nobel prize in literature. But you learn to be tactful as well as firm. You have to. You learn the other fellow's games, and the sensitive spots. You do not pose as a moral leader, nor even as a crusader. You are a foreigner, perfectly welcome so long as you mind your own business, but apt to get into serious trouble with both the Brazilian and the American government if you do not keep fairly close to discussing international relations.

You will find much to admire and some things you do not admire. You will be gratified by the courtesy shown you, and have occasions to quarrel. But you do not become an internationalist—you remain an American. The more you see of other countries, the better you love your own. You are comfortable, busy and interested, but you look forward to the time when you can return to "God's country."

### PASS CHRISTIAN BANK OFFICIALS INDICTED.

Ex-Governor Lee M. Russell, together with J. C. Walker and D. B. Allen, the three being president, vice president and cashier respectively of the defunct Bank of Pass Christian, have been indicted by the Harrison county grand jury in connection with the bank's failure. No details as to the specific evidence upon which the joint indictment against the three has been made public, but it is understood that there are two counts in the indictment.

### NO COMFORT FOR "JAKE" VICTIMS.

The Mississippi supreme court on Monday last handed down a decision which will afford no comfort to a score or more "jake" paralysis victims who have entered damage suits against drug concerns from which they purchased the concoction that made cripples of them. The court held that both the buyer and the seller were equally liable and both had violated the prohibition law in the sale and purchase of the extract "since the bottle's label set out that it contained not over 83 per cent alcohol."

### WHAT LESTER FRANKLIN WILL NEVER SEE.

Lester Franklin favors the establishment of a State printing plant and in doing so courts the opposition of every independent book and job printing office in Mississippi. But what matters it—Lester will never see the inside of the executive mansion unless it is by invitation of his friend Theodore I.

### GIVEN MILD PUNISHMENT

Lewis Hurst and C. J. Coder, Communist organizers at Dallas, Texas, made speeches in that city a few days ago advocating inter-marriage of negroes and whites and racial equality. Result: They were taken out of the city and given a severe beating. It does seem to us that they should have known what to expect from the advocacy of such doctrines in a Southern community.

### SERIOUS AND LASTING TROUBLE.

Leaders in the Republican fold are already growing uneasy and are fearful that the independent and progressive element in their party may cause them serious and lasting trouble in the next national campaign. And well they may, for with their aid and cooperation the Democrats will be able to control both houses in congress when the seventy-second session is convened.

### STAY OUT OF THE RACE, SISTER.

Mrs. Theodore G. Bilbo is quoted as saying: "I am contemplating running for secretary of State and will shortly make a definite decision." The Echo's advice to the governor's better-half is: Stay out of the race, sister. You will save time, money and much vexation of spirit by doing so.

### DEATH OF CONGRESSMAN ASWELL.

Hon. James B. Aswell, for the past twenty years a member of congress from Louisiana, died Sunday night, in Washington from a heart attack. He was a most useful representative and his record in congress marked him as a broad gauged statesman.

### POT CALLING THE KETTLE BLACK.

It looks to us like it is "the pot calling the kettle black" when Huey Long and Theodore Bilbo engage in a controversy.

Add sad words of tongue or pen: "Sorry, old man, I haven't got it."

Buying for cash, and saving some of your monthly income, is one way to get the return of prosperity in your own household at least.

When all the people of the world agree on everything then we will be glad to have a ticket to some other planet, without a return coupon.

A man who has given all his life towards the acquisition of money cannot learn how to enjoy living when he has what he thinks is enough.

Southern newspapers have let President Hoover know that his veto of the Muscle Shoals bill is disapproved and they have also charged his action was influenced by the Power Trust.

James Prestridge, gasoline station operator, shot and killed himself four hours after he had held up and robbed the Silver Creek State Bank last Monday of about \$1300.00. He had been arrested and confessed the robbery.

The Batesville Panolian asserts in a recent issue that "the time has come in the history of Mississippi for the election of men to office, who are qualified, versed in the science of government, acquainted with the needs of the people, and who will stand for an economical administration of the affairs of Mississippi, and the welfare of the state."

### PRIMARY VS. CONVENTION.

The Indianapolis Enterprise of March 12 prints a strong, convincing and timely editorial favoring the repeal of Mississippi primary election law and a return to the old convention method of nominating candidates for office.

Since the enactment of the primary system of making nominations our State, district and county offices (with some few exceptions) have been filled by men who failed to measure up to the standard that obtained in years gone by. Especially is this true of the State offices.

When nominations were made by a State convention only men of known ability, honesty and fitness were nominated, and when elected they filled their respective offices with credit to themselves and reflected honor on the commonwealth. No scandals, charges of corruption or bribing ever attached to their good names.

Hon. Ed. Noel, whose honesty, sincerity and ability no one doubted, was the author of our present primary law, but no greater mistake was ever made, or more hurt was ever done Mississippi than the day when the law was enacted, and we believe the time has come when it should be repealed.

Under the primary system the cost of making a campaign for any state office has become prohibitive to most men who really possess merit and qualifications to fill the same. Therefore the field is left to men of mediocre ability and no conception of their duty to the State and her people.

The progress and advancement of Mississippi has been retarded immeasurably and shame and disgrace has been brought upon her fair name by the scandals which have resulted from the acts and doings of her high public officials since the primary system of nominations became operative, and the commonwealth will continue to suffer until we return to the old convention method of nominating candidates for public office.

### THE ONE ISSUE

This country cannot be half wet and half dry. There is no middle ground either. Prohibition is the law of the land and no party has a chance, be it Republican, Democratic or any other, which aligns itself against the law of the land.

There is just one issue before this country. It is Law Enforcement.—Hattiesburg American.

We are quite in accord with our worthy contemporary in its pronouncement that Law Enforcement is the one issue before the American people today, but we see no chance of securing its enforcement so long as the Eighteenth Amendment and other statutes remain in force. No country has ever witnessed an increase in crime comparable to what has been taking place since the enactment of our prohibition laws. It has been convincingly demonstrated that conditions during the era of the open barroom and saloon were far preferable to what we now have. This fact may, and no doubt will, be disputed by the majority of the "drys," but the sincerity of their protestations to the contrary are not borne out by existing conditions.

The platforms to be launched by both of the major political parties next year should, and no doubt will, be specific in their pronouncements regarding the liquor question and their campaigns will be waged on that issue, and the people will register their will as to whether or not they wish for the present intolerable conditions to continue.

Enforcement of the prohibition law has been a farce, and we can see no further use in encouraging the orgy of bribery and corruption on the part of both federal and local officials by bootleggers and the distillers of moonshine liquor.

### FOR THE GOOD NAME OF JACKSON COUNTY.

Upon request of District Attorney Colmer, Judge Walter A. White has called a special term of the criminal court for Jackson county to convene April 6th.

Judge White gave no reason for ordering the special term other than that "public interest requires it," though it is generally believed that it is for the purpose of trying a negro who is charged with criminally assaulting a white woman near Ocean Springs a few days since.

The negro was arrested by the Jackson county sheriff and who was spirited away to an unnamed jail in order to forestall mob violence, this saving South Mississippi much needless and harmful publicity.

The Echo commends the action of both Judge White and District Attorney Colmer for their prompt action in the matter of holding a special term of court to dispose of the brute's case at the earliest possible time. From all reports we understand that his conviction is certain and for the good name of Jackson county and the State it is far better that justice is meted out to him by the court than at the hands of an infuriated populace.

### "PEOPLE BE DAMNED."

The phrase about "government of the people, by the people, for the people," was probably only another of Lincoln's little jokes—Pascagoula Chronicle-Star. Just whether old Abe intended it as a joke we do not know, but as applied to either our federal, State or local governments of this day and generation it is about the greatest joke ever perpetrated. With those entrusted with the administration of government it is "the people be damned" and unseen power and influence control the great majority of office holders to whom the people look for protection of their interests and that of the nation.

### ENTER PLEA OF GUILTY.

In the federal court at Meridian last Friday, H. Edward Jackson, ex-bank teller of Laurel, together with his father, John Jackson, traveling salesman and Roy Schaffer, radio mechanic, entered a plea of guilty to charges of embezzlement, aiding and abetting and conspiracy in connection with the theft of about \$72,000 from the First National Bank of Laurel. Five other men, including a former sheriff of Mobile county, are under arrest and will be carried to Meridian for trial for their participation in the robbery.

### VIEW OF OUR NEWS By Chicagoan

Chicago, Ill., March 17.—Papers from most parts of the country now on my desk tell me of severe blizzards that raged during the past week in the territories covered by the papers. But that is not the case with the Sea Coast Echo, which is here, filled with accounts of the beauty of springtime on the Gulf Coast.

And while Chicago and other less favored cities were digging themselves out from under huge snowdrifts, Bay St. Louis Rotarians were comfortably seated in their dining hall listening to the learned young Lucien M. Cox relate the past history of their city. Bay St. Louis is one of the oldest towns in the United States. The flags of many nations have flown over its surrounding territory since the day it was discovered by the sea roving band headed by the picture-dancer D'Iberville.

And of course, everyone who reads the account of Mr. Cox's speech noticed the use of the word "filibuster." The word is still commonly used but in a slightly different sense than it was employed by Mr. Cox. However, I don't suppose that it ever struck terror to the heart of a man more than it recently did to President Hoover who trembled every time he thought of an extra session of the new Congress over which he would have even less control than he did over the body that has just passed out of existence.

Primitive man was the slave of the elements. He quailed before the wrath of the sea, the fury of the storm and the ferocity of wild beasts. The sun was kindly to him, so he often worshipped it. Modern man worships no natural force. He has conquered the sea—and the air above it. The storm fascinates him, rather than striking terror to his heart. Because of his deadly weapons, the wild life of the forest flees from his path in fear. Wonderful, indeed, is the control man exerts over nature. But when he loses that control, even for a second, he is liable to come to woe. Guiding a vehicle propelled by a combustion engine, William Andrew Wade, for some reason, lost the control he had over it. The result was the tragedy chronicled in last week's paper.

I can just imagine the thrills to be experienced by those who attend the basket ball benefit to be given by the Bay St. Louis Kings' Daughters Hospital. When a grizzled and hardened veteran of the press, such as is the star reporter sent to witness the work-outs of the "Tigresses" find his experiences too thrilling to write about them, you may depend upon it that less calloused people will find excitement galore when the event takes place.

For many years John D. Rockefeller has given up the task of making money and has devoted himself to the proper spending of the accumulations of himself and his father. Last week's paper gave us an interesting account of the recent experiences of Mr. Rea. This traveler and nationally known philanthropy man has devoted special attention to the philanthropy of Mr. Rockefeller, and he is pleased to note that the former oil king has the Rotary idea.

The perspiration has been wiped from the brow of the last man or woman to fill out an income tax report before March 15. Uncle Sam's calculators will soon announce the amount of money the government has derived from income taxes. Those reports will indicate the effect the business depression has had on people in the different stations of life. In the case of many exemptions and deductions will exceed gross income. Exemptions, if not deductions, are particularly welcome this year. But all that has nothing to do with the report of the Bureau of Vital Statistics published in last week's Echo. The parents of those darling \$400 "exceptions" are happy for reasons that the effect the new arrivals have on income taxes.

### Poems That Live.

CROSSING THE BAR.  
Sunset and evening star,  
And one clear call for me!  
And may there be no moaning of the bar,  
When I put out to sea.  
But such a tide as moving seems asleep,  
Too full for sound and foam,  
When that which drew from out the boundless deep  
Turns again home.  
Twilight and evening bell,  
And after that the dark!  
And may there be no sadness of farewell,  
When I embark;  
For though from out our bourne of time and place  
The flood may bear me far,  
I hope to see my pilot face  
When I have crossed the bar.  
—Alfred Tennyson (1809-1892).

Not far from a man says something that completely exhausts a subject, following sentences from the will of the late Nathan Strauss of New York. "What you give for the cause of charity in health is gold; what you give in sickness is silver; and what you give after death is lead. Many do not even give lead."

#### FINE GROWING SPECIMEN PHOTINIA GLABRA AT THE ENGMAN GARDENS.

At this time of the season every year all lovers of the beautiful and nature in particular admire the growing hedge surrounding the gardens of the dwelling of Mr. and Mrs. R. C. Engman and family in Booker avenue where the photinia glabra seems to grow at best.

This particular shrubbery, very uncommon, seems to grow well in this Coast section. The Engman home is surrounded with a border of the plant, which may be trimmed or allowed to grow into a tree form. The foliage is thick and verdant, however, at this period the plant shoots forth a luxuriant growth of leaves of bright red, a color that is a living red and appeals to all passer-bys. As a tree, we are told, the leaves become one cover of scarlet red. As a hedge, the photinia glabra is attractive, and while there might be other bushes in this vicinity, none have been so planted and proves effective as that in the Engman gardens.

#### JACKSON COUNTY HAS EYE FOR THE BEAUTIFUL CATERING TO VISITORS.

Traveling over the Biloxi-Ocean Springs bi-county auto bridge, after passing the full length of East Howard Avenue, Biloxi, the traveler is met on the shores of Jackson county (at Ocean Springs) with landscaping of shrubbery in formal garden which the Board of Supervisors of that county has ordered, and, which by the way, will prove of a most attractive greeting to visitors from the west when entering the county by auto route.

This, in a measure, represents a small outlay of money but stands for a vast outlay of result at so little expense, and will prove a handsome return on money and time represented to say nothing of the effort of a thinking board.

This brings to mind the fact that with comparatively little outlay and that which could be done from time to time until the entire coastal line was covered, this work could extend through the three counties, the same as is done in other states, California in particular. One can well remember, and always with fondest recollection, the considerable improvement to Santa Monica, through Sawtelle and the Old Soldiers Home, the planting of palms and roses, a distance of fully twenty miles, edged with a perfect lawn all the way.

However, the Board of Supervisors of Jackson county should be commended for this. We feel sure the cost is surprisingly small.

#### FORTHCOMING ROTARY BENEFIT FOR NIGHT SCHOOL IS APPEALING.

Perhaps no benefit entertainment will prove of more interest than the presentation of "Gulf Park Frolics," which will be given on the evening of Friday, April 17, at Bay High school auditorium. This is an annual presentation by the Bay Rotary, through the thoughtfulness and generosity of Dr. Richard G. Cox, of Gulf Park. The Rotary Club has the privilege of disposing of the funds realized in any manner it may desire, and each year some worthy organization is aided. However, this year the proceeds will be appropriated to the Rotary Club night school, and in return for the gesture of other years it is certain there will be a rally to support it.

Gulf Park Frolics is high class and entertaining; representative and well worth while. Shown at Gulfport it received the unanimous stamp of approval of all privileged to witness. It will come to Bay St. Louis in full scope. Tickets are now on sale. Dr. Jas. A. Evans is chairman of the gentlemen's committee, and Miss Elsie Mauffray chairlady of the ladies' committee. All admission prices reduced for this year.

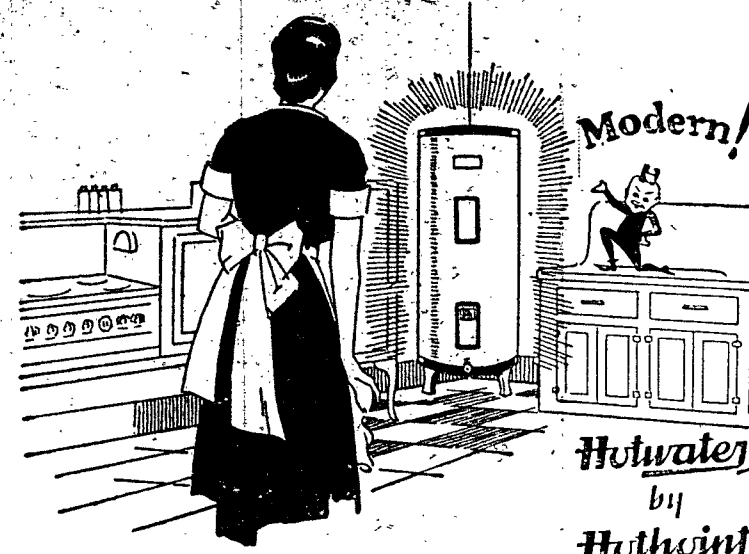

#### IMPROVEMENTS FOR INN-BY-THE-SEA FOR THIS SUMMER SEASON.

It is not generally known, but a Inn will be open to the public. Improvement and general renovation is planned for Inn-by-the-Sea as soon as the winter season closes. Architect McCall of Chicago, designer of Edgewater Gulf, has an extensive set of plans for many improvements and changes and between the spring and middle summer, when the latter season is at its best, it is expected the Inn will be open to the public.

It will also be of interest, particularly to local golfers, to learn negotiations are in progress for acquiring use of the 18-hole course laid out by Pass Christian Isles corporation, almost adjacent to the Inn. This accomplished, will give a full-fledged course at the disposal of Inn guests and also to players of this section of the Coast.

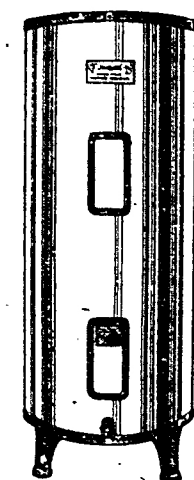

#### EASTER WEEK STUDENTS TO BAY-WAVERLAND ARE GENERALLY WELCOMED.

Bay St. Louis Chamber of Commerce, that clearance house for Bay St. Louis, that representation that speaks with authority for Bay St. Louis and its citizens, has sent out some twenty odd letters to that many sororities and fraternities at New Orleans, asking its members, in the school set an invitation to spend the Easter week-end in Bay St. Louis and Waveland. And already this thoughtful act on the part of the C. of C. is bearing fruit. It is possible that Easter week-end will witness the coming to the Bay-Waveland district the

#### AN EPIDEMIC OF PAINT- ING IS GOOD FOR THE TOWN IN GENERAL.

Painting and general improvement is infectious in the Beach district of Bay St. Louis, there has never been so much renovations going on at one time in any one section. A neighbor says we have to keep pace with the Echo Building. It outshines us all and pales our appearance. It is a good suggestion for others not in this particular business district of the city and might well extend to the residential sections. Price of paint is now within reach of all and one ought to be able to buy it in Bay St. Louis.

#### ROTARY CLUB LEADER AMONG MEN IN BUSINESS AND CIVIC ACTIVITIES.

Bay Rotary Club is proving a means of serving as a vehicle for speaking here not like nothing else has ever served. Each week there is some speaker of ability and who has always something to say. This medium is proving invaluable and redounds to the credit of the club and to the benefit of the membership. The Bay St. Louis Rotary Club identifies you. It gives the business people place and prominence and affords associates like no other business organizations afford. To be identified with the Rotary Club in any community is quite the thing. It is a stamp of approval for better citizenship and places business men among men. We are known in business and civic matters, both by what we accomplish and with whom we are identified and the men we associate with. Barney Eaton, president Mississippi Power Company, will address the Bay St. Louis Rotary Club next week by invitation.

#### Meditation.

Thru the gloom that prevades the forest,  
Thru its cheerfulness too,  
With a mind immense in thoughtfulness,  
What marvelous wonders we can do.

O'er mysteries, sacred and supreme,  
We can merely marvel and dream,  
Tis with impatience and vexation  
Our mortal mind fails us here.

Of all things vast and universal,  
Our mind is grim rehearsal,  
Can ponder morbidly.

"I HAD a stubborn case of constipation after a very severe spell of grip," says Mr. John B. Hutchison, of Neosho, Mo. "When I would get constipated, I'd feel so sleepy, tired and worn-out. When one feels this way, work is much harder to do, especially farm work. I would have dizzy headaches when I could hardly see to work, but after I read of Black Draught, I began taking it. I did not have the headaches any more. When I have the slightest tired feeling, I take a few doses of Black Draught, and it seems to carry off the poison and I feel just fine. I use Black Draught at regular intervals. It is easy to take and I know it helps me." This medicine is composed of pure botanical roots and herbs. Contains no chemicals. In 25-cent packages.

## WORK AND PLAY AT S. J. A.

### S. J. A. CELEBRATES FEAST OF ST. JOSEPH

March 19 is the feast of St. Joseph and naturally one of the greatest days in the calendar to all pupils of S. J. A.

The day was begun with High Mass which was sung by the whole student body. Practically every class in the school could boast of one hundred per cent attendance at Holy Communion. Benediction of the Blessed Sacrament followed the Mass, after which the girls flocked to the Convent to wish a Happy Feast day to Mother Claire and the Sisters. The groups then disbanded, hurrying home to make the most of this great annual holiday.

### STUDENT BODY HONORS PATRON SAINT DAILY DURING MONTH OF MARCH

March is particularly dedicated to St. Joseph who is the Patron Saint of our beloved school. Daily, therefore, since the first of March the whole student body assembles in church at ten o'clock to pay tribute to the great Foster, father of Our Lord. Special prayers are recited and a hymn to St. Joseph is sung. We are asking many favors of our dear patron, St. Joseph and full confident that he who never disclaims any petition will also answer our prayers.

### MARCH 25 DATE OF RECEPTION INTO THE JUNIOR SODALITY.

After having been unavoidably postponed on two former occasions, March 25 has at last been definitely set for the reception of the new members into the Junior Sodality of the Blessed Virgin.

The Missa Recitata will take place at seven o'clock and will immediately be followed by the Reception. About ten new members will be enrolled into the Sodality.

### BATON ROUGE TEAMS GUESTS OF S. J. A.

Saturday and Sunday of last week were exciting days for S. J. A. From the time of the arrival of the Baton Rouge teams Saturday just before noon until the time of their departure Sunday afternoon things were humming around S. J. A. If our guests enjoyed the week end half as much as we did then we know that they had a good time.

We only wish that we could see them oftener and though we may be "counting our chickens before they are hatched" some of us are already looking forward to the time next year when we shall be able to give a return game to the little Red Stickers of Baton Rouge.

### BLUE J'S AND RED STICKERS PLAY A TIE GAME.

That the tournament did not mean the end of Basket-Ball for the J's was plainly evidenced last week end, when our Grammar Grade Team, the Blue J's, played against the Little Red Stickers of Baton Rouge.

The game was a "peppy" one from start to finish, our little Sister J's showing that they could fight as hard and as well as their larger sisters, the Goul J's. The Little Red Stickers were also right there with the goals and the final score of 18-18 showed just how well matched the two teams were.

The preliminary game played between the Sacred Heart boys of Baton Rouge against the Logtown team was also enjoyed by all who witnessed it.

### GOLD J'S TO ENTERTAIN NEW ROADS THIS WEEK END.

Friday, Saturday and Sunday of this week promise to be as exciting as was last week end. This time it will be the Gold J's turn to entertain. Their guests will be the first team of New Roads where our beloved Sister St. John is now Superior. We are sincerely hoping that Mother St. John will accompany the team. There is also another connecting bond between ourselves and the New Road's team owing to the fact that the Mac McAllingham of Class '29 is now coach of the New Road's team.

The game will be played at eight o'clock Saturday night in the S. J. A. Memorial Hall.

The New Roads team went to the finals in Alexandria and is reported to be a very strong team. So come on everybody and help us win our last fight this season.

### INTER CLASS GAMES.

The two games played in the gym last Monday night have been voted by many the best games of the season. Certain it is that no teams ever fought harder or with more spirit than did our Independent High School teams.

The Freshmen and Sophomores started the ball agoing and managed to keep tie during the larger part of the game. The "Freshies" contrary to all expectations gradually crept ahead during the last quarter, the final whistle proclaiming them the victors.

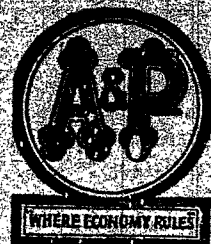

The "Jolly Juniors" and Serious Seniors followed next and provided us with several thrills owing to the closeness of the score. The fact that several of the players had never before handled a basket-ball did not prevent them from fighting just as hard as their more experienced sisters, even though it did afford us a few good laughs. The Senior Junior score was a tie of 16-16.

The proceeds of the game will go to swell the Senior Class fund.

### JUST A JUMBLE OF "THE LITTLE THINGS IN LIFE" BY A JUNIOR

The convent girls are "crying themselves to sleep" because all of them aren't "Friends Again" and are feeling "hurt."

"Tears are their only consolation" and so they "sing something simple and are 'Driving each other Crazy'." When it's Springtime in the Rock-see "After the Rain" they'll wish it was "Moonlight and the Colorado" with "My Guitar and You" also "I'm Just a Girl."

## SPORTS AT STANISLAUS

## BOXING.

The Stanislaus mitt-men strutted their stuff last Friday, and how! Ask Moss Point. One boxer still ask the fellows who were there. Have we the makings of team? Well, don't ask me such a foolish question! At that we didn't show all we have. We had some others sitting along the "side-lines" who were unable to get in because there was no one to take on.

But to get back to Friday. The first was a lively scuffle between our own Dave Glover and Brewer of Moss Point. Dave had little time for his well known footwork; he had plenty to do and went right out to get rid of the job as soon as he could. He won the first bout for the Rock.

Chaw's. His was a great honor as this was the first interschool affair undertaken by the local school. Gonzalez lost the second bout to Cowart. Our little fellow will have to stretch his arms a mite and we know what he can do. Ballard made short work of Day's with some healthy jab that knocked him to sleep; a towel thrown from his corner stopped the scrap at the end of the second round.

Esquivel had a tough hombre in Blades. Blades carried a smile that was deceiving, but Esquivel was not to be won by a cajoling smile. He cuffed and swung some rights and lefts that gave the referee's decision.

Matherne lost no time in getting down to business from the opening bell. Ray his opponent must have thought Matherne was carrying more than the regular and legal number of gloves into the fray. Distress signals were hoisted and he too went by the K. O. route.

Motty looked as if he were to have the time of his young life in taking on Battling Cirilo of Moss Point, but Silent Motty got down to business and he too took the opposition into camp by a knock-out. Canfield drew Edmund Blaize as his opponent, and we feel sure that he would have preferred to have made his acquaintance outside and in.

The Stanislaus boys took nine of the eleven bouts; five by knock-outs; one bout was a draw and one was taken by Moss Point. The boys will have as guests tomorrow night the St. Francisville-Louisiana High School. St. Francis-

ville is just above Baton Rouge on the river and boasts of as good a mitt team as any in Louisiana. Congratulations are due Junior Branch, the coach of S. S. C's mitt squad, for the wonderful development shown by the boys last Friday.

Junior Baseball Notes. Last Monday Brother Conrad made preparations for a baseball league among the boys of the Junior Yard. There will be five teams captained by the following boys, J. Loicano, W. Smith, L. Blaize, R. Kidd, and N. Fayard.

Athletics: P. F. Brown, C. A. Pison, J. Loicano, W. Velez, C. Garcia, F. Fagans, D. Gay, T. Quintini, L. Galle, U. J. Redman.

Yanks: W. Smith, A. Abrams, P. Stakelum, W. App, C. Gulotta, P. Schnecken, F. Fayard, A. Baecker, C. Piman, J. Ryan.

Cardinals: B. Buras, L. Blaize, W. Reinhard, H. Spence, R. Lawless, W. Van Derwerker, J. Grigoratti, J. Harper, C. Henry, F. Sheehy.

Senators: R. Kidd, J. Heath, J. Dufilio, A. Cunningham, E. Perre, M. Sandoz, G. Moss, W. Moss, V. Gennelson, I. Defelice.

Cubs: N. Fayard, A. Combe, J. Pepperdene, G. Gerchow, A. Villoch, J. Henry, A. Crump, F. Favalora, L. Kidd, W. Kester.

S. S. C. TRACK TEAM. S. S. C. has a wealth of raw material this year for track, but whether they will produce the goods or not is still debatable. Coach Perkins says that he has a perpetual headache worrying about the new-comers. Most of the worry is on the question, "Will they stick or will they fall by the way side?" On the answer to that question is based a track team.

The old timers who are back on this year's team are Colotta, Ducasa, Saucier, Linam, Esquivel, Andrade, Camors, Doggett, and Falchetto. Colotta runs anything from fifty yards to five miles; Ducasa flies the four-forty and the eight-eighty; Saucier hums the discus; Linam puts the shot; Esquivel runs the relay; Andrade trots the mile; Camors is the pole vaulter; Doggett throws the javelin; Falchetto jumps the running broad jump.

Some of the new-comers will undoubtedly make the old boys get up and step and even with first class stepping some of the old boys will have to be satisfied with second place.

## JUNIORS DEFEAT BLOXI AND BATON ROUGE.

The Junior Basketball team pulled the curtain down on the basketball season last week with two victories over Sacred Heart of Baton Rouge and Sacred Heart of Bloxi. In both games the Juniors showed superior pass work and team work. Captain Raymond Kidd of the Junior team was best all around man. His ability to shoot was a big help for the Juniors.

In the Bloxi game, which was witnessed by a very large crowd, Brother Conrad used three teams in order to make the affair an interesting one. The half ended 19-5 in the Juniors' favor and Bloxi came back strong in the third quarter and came within two points of the Juniors. The final score was 35-21.

Brother Conrad was forced to keep his first or second string team in all the time during the Baton Rouge game. The boys from "Up the River" were just a little bit too good for Brother Conrad's third stringers and at times made it real uneasy for the second stringers.

## CURRENT COMMENT

For The Sea Coast Echo.

The seventy-first congress of the United States has come to an end. Its appropriations amounted to ten billion dollars, and might have exceeded that sum, had not a filibuster, by Senator Thomas of Oklahoma, put an end to the passage of last-minute bills. Out of approximately twenty-five thousand measures presented, less than fifteen hundred were passed. No living man is able to make a comprehensive report on the discord, but it is safe to say that much of it deserved no better fate than was meted out to it.

Persons wishing a divorce can obtain it after six weeks residence in Nevada, under the terms of a bill passed in the lower house of that state, and likely to pass the upper house in due season. Idaho and Arkansas speeded up divorce production, and it was incumbent upon Nevada to get in line or lose her standing as a clipper of the matrimonial bond. Times are hard, and competition is keen in every line.

One hundred million dollars worth of bonds of the City of New York were subscribed for inside of thirty minutes, and there was a sharp rivalry as to who should receive them. Disposing of shaky securities in the New York bond market would have been a hard job. The lesson is obvious. When looking for a safe investment, remember the security afforded by the bonds of the home town, or any other municipality that is progressive enough to make improvements that require the expenditure of money.

Tidal waves of unusual magnitude have done incalculable damage from Nova Scotia southward along the New England Coast, and it has been suggested that the beating of the great waves on the shores may account for a multitude of small earthquakes recorded at the same time by delicate instruments in various parts of the United States. Scientists, however, think otherwise, and dismiss the matter substantially in the words of Josh Billings: "Better not know so much, than to know so much that aint no."

A federal board of investigation has recommended that public lands held by the national government be turned over to the states. In the natural order of things, it seems as though a state should have control of the land within its borders. Local needs are best understood by local powers, and vacant land is a very effective means for ministering to local needs.

Two adjoining newspaper columns remind us that our grandfathers were a sturdy generation. In one of them it is stated that Mr. Justice Holmes of the Supreme Court of the United States, hale and on the job at 90, has given a radio talk. According to the other, three hundred and ninety persons who saw an art display in 1851 responded to invitations to see it duplicated in 1931, whereas it was supposed that there was not a corporal's guard still living. One wonders what sort of showing the present generation will be able to make in the year 2111.

JUNIOR BASEBALL NOTES.

The Junior baseball team opened up their playing season last Wednesday afternoon. Their opponents were the Cracker Jacks. The Juniors pounded Martial Bertin for 6 hits and 5 runs. Bernard Buras won fame as the Junior pitcher. The first eight men were struck-out. Young Buras had to pitch but 10 balls in the first inning. The best hit was a three-bagger by Brown. John Heath was good behind the bat.

Ed Heath at second base for the losers was best. After Buras retired and Fayard got on the mound Ed Heath got two two-baggers. The final score was 5-1.

## LETTERS FROM THE PEOPLE

An Open Letter To The Board of Mayor and Aldermen Of Town of Waveland, Miss.

The following letter addressed to the Honorable Mayor and Board of Aldermen, Waveland, Mississippi, has also been sent to The Sea Coast Echo, for publication, which we reproduce here as an open letter to the public.

New Orleans, La., March 10, 1931. To The Hon. Mayor and Board of Aldermen, Waveland, Miss. Gentlemen: It is my understanding that your Council is presently considering the possibility of lighting the streets of the town of Waveland.

While I am thorough and in accord with this improvement, and I feel that such a move would be one more step forward for Waveland, I do feel that there are two other matters of far greater importance to the welfare of Waveland.

If a property owner attempts to beautify his garden and landscape his grounds, he soon learns that all his efforts are futile, unless he constructs an unsightly fence to keep out the herds of dairy cows that are permitted to roam along the beach.

After losing a number of valuable shrubs and plants, and having his garden spoiled for a whole season, the property owner usually has to sacrifice his plans and erect a high fence, (unless it is over four feet the hungry cows will jump it.) Even so, however, one is not safe, for upon the gate being inadvertently left open by some delivery boy or stranger, Mr. Property Owner returns home one bright evening to find that a dozen cows are feasting on his expensive and tenderly nurtured plants.

All of those who have lived in Waveland have experienced this many, many times, and know how discouraging it is and how hopeless the future of Waveland will always be if this matter is not controlled. If you will compare Waveland with the more popular and beautiful cities of our Coast, you will find very little difference in the residences and buildings, but where Waveland falls short is in the matter of lovely lawns, shrubbery, and gardens, which are absolutely impossible to achieve without a strictly enforced fencing ordinance.

Of equal importance is the provision for some lateral drainage system along the property side of the roadway adjoining the sea-wall. It is not difficult to see that, without some means of drainage, our beautiful and costly sea

## New Telephone System in Service March 25th

BAY ST. LOUIS' new telephone system will be placed in service at 6:00 A. M., March 25th. At that hour all lines will be connected with the handsome new switchboard and service will go ahead without interruption.

A new feature known as "audible ringing" has also been installed in the new office. Through its use you are able to know that the operator is ringing the number you call. It relieves the operator of making the "I am ringing" report and gives the assurance that due effort is being made to attract the called party.

The ringing signal is a "burring" sound, heard at intervals, which indicates that the bell of the called party is ringing.

To make a call, remove the receiver from the hook, and,

when the operator answers, give her the number of the station desired. Listen for the "busy" signal; if the line called is busy, you will hear the "busy" signal, a "buzz-buzz" sound. When this signal is heard, hang up and call again a little later.

To recall the operator on a connection, either to call another number or for any reason, move the receiver hook up and down slowly until the operator answers again. Do not jiggle the hook, as this will not signal the operator.

It is important that you refer to your telephone directory each time before making a call, so as to be certain to call the correct number.

We are anxious to give you the kind of service you want, and your co-operation in using the telephone properly will be appreciated.
